PILOT DECLARES HE WILL NOT REPLY PROMPTLY

Liner Heavily Laden Still on
Mud Banks and Will Have
to be Lightened

MARINE INQUIRY HAS BEEN ORDERED

Boat is on Mud Bank and Very
Little Damage is Believed
to Have Been Done.

Montreal, Sept. 25.—The C.P.R. liner Mount Temple, which was last night off Longueville, opposite the fishing ship, the *Edouard*, which was yesterday morning and in spite of the efforts of nearly a dozen tugs, remained fast, and had to be lightened of a considerable portion of her cargo preparatory to the next effort which will be made by the tugs to refloat her.

There were only half a dozen other passengers aboard and those were taken off. Pilot Boultie was in charge of navigation of the ship. He was also in charge of the Lake Champlain, now known as the *Ruthenia*, when she went aground opposite the town of Longueville, last fall. The weather was clear except for the light haze of a fall morning. Just after tea had been passed the *Edouard*, after most efforts, had passed under the *Edouard* ship should have kept within, or failed to turn as required by the configuration of the channel at this point.

Pilot Boultie is reported to have said that the ship did not founder but was promptly refloated, but confirmation of his report is lacking.

The liner, which was very heavily laden, cleared the mud bank with her bows, but the stern stuck fast. Her engines were at once reversed but the ship remained on the bank.

Captain Moore, commander of the *Edouard*, sent messages for assistance to the harbor, and a fleet of tugs responded. Their united efforts, however, failed to refloat her and two lighters went to the scene and commenced lightening the cargo.

Mount Temple is one of the largest steamships in the world. She is 260 feet long and 32 feet wide. She is the largest ship in the world. She is the largest ship in the world.

FELKER TO DEFER EXTRADITION REQUEST

While Legal Advisors are Deciding
Whether He Shall Be Deported

Cincinnati, N.Y., Sept. 25.—Governor Felker may not be able to give his answer to New York State's request for the extradition of Harry K. Thorton of New York, until late next week. Counsel for Thorton said last night it may be necessary to ask for a further extension of time in which to file the briefs supplemental to the arguments introduced in the hearing before the governor yesterday.

Thorton, Sheriff, Martin and Douglas, of Concord, and visited the birthplace of the criminal on Wednesday. Thorton was under the care of John Sheriff, who was with him during the two hours pleasure trip.

Petition Being Circulated Against Renumbering Plan

Petition Asks That Resolution Referring to the Renumbering Be Rescinded and that the Citizens of the City Be Allowed to Vote on the Question—May Be Seen at Various Hotels and Stores Throughout the City—Claims Scheme is Too Expensive.

A petition is being circulated among the citizens of Edmonton today calling for a reconsideration of the action of the council in adopting the new street numbering plan. There has been a general opinion lately that a petition of this kind would meet with approval and that there would be a great many signatures. Last week a number of prominent business men considered circulating such a petition but refrained from doing so for the present. In the meantime other citizens have decided to go ahead with the petition and learn what the sentiment of the majority is concerning the matter.

SECOND READING WATERWAYS BILL DEFERRED UNTIL MONDAY; OPPOSITION IS NOT READY

Second Reading of the Woodman's Lien Bill Was Also Deferred Until a Later Date Because Copies Were not out Long Enough—George P. Smith of Camrose Wants Game Laws Amended to Have Duck Season Open Later and Chicken Season Earlier.

Yesterday was "flower day" in the Alberta legislature. Ponderous and fragrant oratorical bouquets were exchanged by the members and the atmosphere was redolent with politeness. A genial spirit filtered through the corridors and made more endurable the vitiated air due to lack of ventilation. It was almost stifling in the galleries.

The opening of the afternoon session found the opposition unprepared to take up the Waterways legislation. Mr. McHenry, the opposition leader, asked that the second reading of the bill be deferred until Monday next. Premier Sifton said that while he had no desire to crowd matters, he thought the house would have little to work on during the remainder of the week and he would like to take up the bill today. The opposition, he said, had complained because the house had been in session for three days last week before the Waterways measure was introduced. However, he was willing to oblige the honorable members on the opposite side and would therefore give his consent to postponement until Monday afternoon next.

Second reading of the woodman's lien bill was also deferred, as the printed bill had not been in the hands of the members for a sufficient length of time. The bill amending the insurance act was read a second time and advanced on the calendar. It makes no changes in the measure, the amendments being merely for the purpose of rendering the law clearer.

ATHABASCA RAILWAY TO START CONSTRUCTION

Petition Legislature to Be Allowed to
Commence Work Within a Year

The Athabasca Valley Railway company is asking the legislature to permit it to begin construction within one year and complete the road in five years. The road runs from Inglewood, on the Edmonton, Dunvegan and British Columbia road, to Fort Assiniboine. The company was incorporated in 1912 and work on the road should have started this year, but owing to financial conditions delay was unavoidable, and the work has only recently commenced.

BILINGUALISM HOTLY ASSAILED BY PAPERS

Kingston Daily Gives Very Strong
Views on the Question Backed
up By Hon. Dr. Pyne.

Kingston, Sept. 25.—The Daily Standard (independent) conservative, which for more than a week past has been vigorously assailing bilinguism, and Hon. Dr. Pyne, has a three column editorial today headed "The Revolt" in which he attacks bilinguism more than before, and quotes from leading conservative papers holding similar views to emphasize his strong feelings on the matter. The Standard declares that in its judgment bilinguism is the greatest menace that the people of Ontario have had for many, many years, and concludes its editorial with this sentence:

"The main point now to determine is whether Sir James Whitney will be warned in time or will make the mistake of supposing that his present bilinguism will always be with him. The handwriting is on the wall. Does he or will he see it?"

ALBERTA RANCHER ACQUITTED.

Winnipeg, Sept. 25.—Fred Ongs, a well-known resident of Nanton, Alberta, was dismissed in police court this morning on a charge of stealing some harness on the night of July 25th. Ongs took a quantity of harness and a horse belonging to him and by mistake included some belongings to another man.

JACOB SCHIFF SAYS HIS CONTRIBUTION NOT RESTRICTED

Turkish Ambassador Says His
Check Was Not Limited to
Any Cause Whatever.

FOOLISHLY GENEROUS
SAYS MORGENTHAU

Presiding Judge Said in Criminal
Court This Charge
Would Not Constitute Larceny.

Albany, Sept. 25.—Governor Sulzer
was free to use the \$2,500 check
given him by Jacob A. Schiff, a New York
banker, in any way he chose.

The banker so declared yesterday
on the witness stand at the impeachment
trial of the governor. The declaration
of the check on its back as
a contribution to the governor's campaign
fund did not restrict its use to
that purpose, Schiff testified.

Henry Morgenthau, ambassador
to Turkey, formerly chairman of the
finance committee on the democratic
national committee, testified that when
he gave the governor a check for
\$1,000—a personal contribution—he
had placed no limitations on its use.

He said, however, that he had made
the gift to help the governor in his
campaign, and had been "foolishly
generous." These are two of the al-
leged campaign contributions which
the articles of impeachment against the
governor charge that he stole.

"It possibly cannot make any differ-
ence in this case, but if I were sit-
ting in a criminal prosecution," said
Judge Edgar M. Cullen, president of
the court, "I should have to charge
the jury that if the owner con-
tributed to the use in any manner of the
money or check given, by the party to
whom it was delivered, such use would
not constitute larceny."

This testimony and the ruling of the
presiding judge marked the
opening of the actual trial of the im-
peached executive which, up until noon
yesterday, had been delayed by argu-
ments of objections of counsel for the
defense. At that hour all the ob-
jections to the taking of testimony had
been swept aside by vote of the court,
thereby permitting Eugene L. Nichol-
son, of counsel for the managers of
the impeachment, to launch upon his
address, outlining the evidence against
the governor. This opened the case.

The last three obstacles—that of
the motion of the defense to quash
three articles of the impeachment deal-
ing with the governor's alleged misuse
of his campaign contributions—were
thwarted, of yesterday.

Presiding Judge Cullen overruled the
motion without prejudice to its merits
and recommended that the trial be
served until the testimony was all in.
This recommendation—termed a pro-
vision opinion—was sustained by the
court by a vote of 49 to 7.

SALE OF TICKETS WILL BE STOPPED ON STREET CARS

Arrangements Are Being Made
to Have Tickets Sold at
Stores in City.

WORKINGMEN ONLY
LEFT OUT OF PLAN

They Will Be Allowed to Pur-
chase Tickets Between Five
and Eight in the Morning.

In accordance with the recommenda-
tions contained in the Business report
on the Edmonton street railway system,
arrangements are now being made by
the superintendent to place street car
tickets on sale in a number of stores
throughout the city. This will have
the effect of stopping the sale of tickets
on the street cars of the system.

The working men called for the plan
will have opportunity to buy tickets
on the cars and only between the
hours of five and eight in the morning.
Commissioner Chalmers suggested at
the commissioners meeting yesterday
afternoon that the public should be
given due notice before this system be-
comes effective. This was agreed to
by the board and the superintendent in-
structed to insert advertisements in the
papers, giving notice of the date when
the sale of tickets on the cars will be
discontinued by the board.

At that date a passenger does not take
the ticket but by tickets at one of the
places where they will be on sale, a
five cent fare will be collected by the
conductors. This change should mean
a better service for the public, as it
will give the conductors more time to
take care of passengers when getting
in and off the cars, as at present there
is very little assistance possible on the
part of conductors when the cars are
overcrowded.

Superintendent Woodroffe has been
gradually putting into effect a num-
ber of other improvements recom-
mended in the Business report, one
of which is the increase in the speed
of cars. At the present time it is not
possible to run the cars at a high
speed until the permanent track work
has been completed for the season.
This he expects will be accomplished
within the next month and it will then
be possible to give the public a much
faster service.

The question of installing fare regis-
ters on the entire system is one of the
recommendations made by Mr. Bow-
sen which does not appear singly to the
superintendent. However he states
that 10 of these will be purchased
and tried out on one line of the sys-
tem. If they give good results, and are
a benefit to the department, they will
then be installed on every car in the
service. The registers will be pur-
chased from the Ottawa Fair Register com-
pany.

Superintendent Woodroffe has been
asked by the commissioners to prepare
a list of the stores and offices where
the tickets should be placed on sale.
When these have been approved
the list will be advertised prior to
notice being given that the selling of
tickets will be discontinued on the street
cars.

Washington, Sept. 25.—"Main-Fail-

down to its trainmen, is held by the
interstate commerce commission to
have been the cause of the Walling-
ford wreck, September 2, in which 21
were killed and 35 injured. In its re-
port, made public yesterday, the com-
mission blames the wreck on the
wrecked train for lapses and scores
of officials and directors for "inefficiency
of management."

Operating officials of the New Haven,
and officials and directors of the
system are criticized for the promulga-
tion of regulations that were per-
mitted to become practically "dead
letters" and for not seeing that per-
sonally that operating conditions were
not what they directed them to be.

ployees Get Together and Effect
Settlement.

Ottawa, Sept. 25.—The strike of the
car men on the Quebec railway, which
was threatened if certain demands,
for an increase in wages, were not ac-
ceded to by the company, has been
averted. Representatives of the 330
men involved in the dispute made ap-
plication to the labor department for
a board of conciliation under the In-
dustrial Disputes Act, to consider the
points at issue. The company in turn
agreed to abide by the award any such
board might make, but before the
members were appointed representa-
tives of the two parties got together
and made a settlement satisfactory to both.

Vancouver, Sept. 25.—Negotiations
for the acquisition by the Pacific and
Great Eastern railway of the vast
reserve at Newqwa, near Delta, B.C.,
closed yesterday by Dr. D'Arcy Tate, vic-
e-regent of the P.G.E., with Chief
Joseph. The deal has been pending
for some time.

The sum of \$150,000 cash for the
land was finally accepted by the Indians
after some dickerings, with \$5,000 ad-
vances, which will be used for the
service. The natives retain 40 acres,
and each member of the tribe is to re-
ceive a 50-foot lot in another section
of the village. There are 15 heads of
families and 200 of the Indians al-
ready in the reserve.

The reserve is 988 acres in extent
and the railway company expects
\$18.8 acres, which will be used for the
terminal and locomotive purposes.

Most of the natives have signed
agreements and the remainder are ex-
pected to sign up without further de-
lay. The agreement will be submi-
tted to the Indian commission for ratifi-
cation.

ANTIQUE SIGNALS.
In use at the time of the disaster,
the report points out, were "antiquated"
signals condemned by the locomotive
engineers as well as by the pub-
lic service commission of Canada. The
signals were of the "cut out" and
old wooden cars unsuited by
construction for such traffic as they
were expected to accommodate. These
were held to be contributory reasons
for the excessive number of casualties.
Commissioner McChord indicates the
results of a similar recent accident at
Tyronne, Penna., in which the equip-
ment was all steel, and in which none
of the passengers were killed, as an ob-
ject lesson in favor of the use of mod-
ern equipment.

The commission demands of the New
Haven road the immediate adoption of
an "adequate system of superintend-
ence and supervision, which will give
those in authority definite and positive
information as to whether or not the
safety requirements and rules of this
railroad are observed."

Reserve Was Sold for \$150,000
to Railway.

Vancouver, Sept. 25.—Negotiations
for the acquisition by the Pacific and
Great Eastern railway of the vast
reserve at Newqwa, near Delta, B.C.,
closed yesterday by Dr. D'Arcy Tate, vic-
e-regent of the P.G.E., with Chief
Joseph. The deal has been pending
for some time.

The sum of \$150,000 cash for the
land was finally accepted by the Indians
after some dickerings, with \$5,000 ad-
vances, which will be used for the
service. The natives retain 40 acres,
and each member of the tribe is to re-
ceive a 50-foot lot in another section
of the village. There are 15 heads of
families and 200 of the Indians al-
ready in the reserve.

The reserve is 988 acres in extent
and the railway company expects
\$18.8 acres, which will be used for the
terminal and locomotive purposes.

Most of the natives have signed
agreements and the remainder are ex-
pected to sign up without further de-
lay. The agreement will be submi-
tted to the Indian commission for ratifi-
cation.

DEAD EDITOR IS STIGMATIZED BY CONSERVATIVES

Whole Column Devoted to His

PAPERS CALL HIM
ARCH-CRIMINAL

"Redmond's Paymaster!" An-
other Name Given Man Who
Used His Fortune to Further
the Cause.

London, Sept. 25.—The leading
national papers devote columns to the
obituary of Patrick Ford, the deca-
sated editor of the Irish World, who
died at his residence in London, Sept. 23.
They all on his alleged plot to re-
turn to London in connection with the
final agitation. The Tory papers pro-
nounce him an arch criminal, and
stigmatize him as "Redmond's paymas-
ter."

The Daily Express declares that
Ford's death on the date of the Ulster
convention is of ominous portent.
For the same reason, it says, the
Standard says: "The Irish had held
sway with its crimes and passions pre-
sents a mournful chapter of history.
The Ireland of today may affect to
respect the memory of men like Patrick
Ford, but has nothing in common with
a nation which once thought the gos-
pel of dynamite practical and hopeful."

The Daily Mail says: "Nothing could
be more fitting than the improvement
in Anglo-Irish relations than the sim-
ple fact that Patrick Ford leaves be-
hind him no successors nor imitators."

The Daily News says: "He was a
quite unassuming Irish American, who
made a speech and who was the
crime if he had used some por-
tion of the fortune and influence
which he had acquired by the aid of
the United States for the liberty and
honor of his own country."

**ONTARIO MARRIAGE LAW

Country Residents Who Go to the City

Live There Three Weeks.

Ottawa, Sept. 25.—The New Onta-
rio marriage law which states that
those who wish to get married and
wishing to go to another city or town
to do so must either bring with them,
besides a surety, proof that they have
resided in that town for three weeks,
or one of the contracting parties must
reside in that place where the marriage
is to be performed for at least three weeks,
is causing some inconvenience among
country residents, and many a country
society has been postponed.

Many people apparently have not
heard of the new law and come to the
city to get married, only to find that
they cannot secure a license without
living in that town for three weeks.

Stomach Troubles and Weakness of
Kidneys Cured by Dr. Chase's Kid-
ney-Liver Pills.

There is an enormous amount of suffering from liver and kidney diseases and stomach troubles that could easily be avoided by using Dr. Chase's Kidney-Liver Pills. If you could only realize the source of everyday ills that arise from a sluggish condition of the kidneys, liver and bowels you would not be long in giving this medicine a trial.

Mrs. Edward Stewart, New Richmond, Wis., writes: "I want to tell you how thankful I am for curing my Dr. Chase's Kidney-Liver Pills for stomach troubles and backache caused by weak kidneys. I was unable to wash any clothes for over two years on account of my back being lame. I read the Almanac and became sure these pills. Two boxes made me complete cure. I can do my own washing and other work now, and want to say to lady friends that they do not know how much I appreciate Dr. Chase's Kidney-Liver Pills."

TRAINMEN'S CAUSE ABLY PRESENTED BY DR. WARNE

Says Roads are Able to Pay Their Men
More Wages on Account of In-
creased Profits all Around.

New York, Sept. 25.—After offering evidence to show in effect that the increased cost of living for the trainmen of the eastern roads can be met only by the wage increase they demand, the employees closed their direct case yesterday before the federal board that is arbitrating the trainmen's grievances under the new Labor Act.

The roads began presentation of their testimony, calling one witness before the hearing adjourned until today.

Dr. Frank Warner, statistical expert, was the last witness for the men testifying that the employees must have better wages to meet the higher cost of living. Mr. Warner read a paper prepared from reports of the interstate commerce commission showing, he set forth, that the roads are able to grant the men's demands because there has been great gain in passenger and freight revenue by the roads during the 11 years ending 1911, in that year the passenger revenue of the roads, which is a part of the arbitration proceedings, was \$272,000,000 and the freight revenue \$846,000,000, the witness testified, as compared with \$129,000,000 for passenger and \$475,000,000 for freight in 1900.

LIONESS SPREADING TERROR AMONG PEOPLE

Whole Family Infests Region Around
Syria near is Destroying Cattle
Wholesale.

Berlin, Sept. 25.—Terror reigns among the population of Syria, Austria, arising from the depredations of a lioness and her cubs and a number of wolves and hyenas which recently resorted from a mountain, according to dispatches reaching here from Graz. The beasts have established their lairs in the centre of a region of inaccessible mountain country extending over 400 square miles. They have destroyed and devoured 200 cattle and 400 sheep.

The inhabitants will not allow their children to go to school in the remote districts in one of which a country policeman has been missing for some time and is believed to have been killed. It is feared that the beasts of prey after the herds have been taken from the mountain pastures at autumn will invade the inhabited districts in search of food.

TWO BY-ELECTIONS.

Ottawa, Sept. 25.—Now that the dates have been fixed for two of the impending by-elections, activity is becoming evident among the politicians. The available workers of both parties will be soon in the field. Although campaigning there will be no lack of effort on either side. Political meetings in Chateaufort and East Middlesex will be addressed by cabinet ministers and ex-ministers.

RENUMBERING IS EXPECTED TO BE FINISHED SOON

Work Temporarily Suspended
Owing to Lack of Numbers
May Continue Today

HOUSEHOLDERS GIVEN THEIR INSTRUCTIONS

New System Will Also Give
Location of House on Streets
to Facilitate Directions.

That the citizens of Edmonton may become more conversant with the new "all numerical" numbering scheme, now being used in re-designating the streets and re-numbering the houses in the city, J. P. Hughes, who has the work in charge, has prepared an explanatory letter and the city commissioners have decided that a copy of this letter should be furnished to every household by the mail employed in re-numbering. While the re-designation of streets will soon be completed, only a few of the new numbers have yet been put on houses, the work having been stopped last week for lack of numbers. These are expected in the city today, when about a dozen men will start out to tear down the old numbers on all city houses and tack up the new numbers.

The letter explanation of the new system reads as follows: "The new system of house numbering and re-designation of streets which is being introduced in the city is the result of careful thought and is adopted on the recommendation of the board of aldermen, the city engineer, association and post office authorities. This system, which is adopted by the most progressive municipalities on this continent, is necessary and entails no expense to the householders. It has already been approved by public meetings."

"A new city like Edmonton has an opportunity, which other cities lack of destroying all possible confusion; your co-operation is all that is needed. Those of you who come from other municipalities will know the difficulty that strangers, delivery men and mail men experience in locating residences."

"This system, which was recommended by the board of aldermen and the city engineer, remedies this evil."

"The simplicity of the system lies in the fact that the house number of any avenue indicates the number of the nearest intersecting street, while the house number on any street indicates the number of the nearest intersecting avenue. For instance, if you live at 10255 97th street, this means that you live on 97th street near the spot where 10255 avenue intersects."

"On the other hand, if your number is 9200 80th avenue, your mail carrier, your grocer, your visiting friends will easily find your house near the corner of 80th avenue and 92nd street. In other words the first three numbers of an address of two figures indicates the number of the nearest cross street, as does also the first two numbers of an address of four figures."

For example—
10255 97th street, is 97th street and 10255 avenue.
9200 80th avenue, is 80th avenue and 92nd street.

"Your past experience with regard to mis-direction of mail and goods will be at an end."

"A little intelligent thought is all that is needed. There will then be no doubt of your enthusiastic support."

"Other methods have been tried; this alone has succeeded in up-to-date progressive cities, that have profited by the mistakes of older municipalities."

"When once this is introduced the confusion irregularly that distinguished the north side of the city and a host of names that are no guide to the newcomer will be abolished; and uniform index to Greater Edmonton, or the amalgamated cities of Edmonton and Strathcona will be finally and definitely possible."

GARRISON NOT REPLIED TO BANKERS PETITION

Request that Whole Regiment Be
Quarantined on Governor's Island
Has Not Been Dealt With.

Washington, Sept. 25.—Secretary Garrison has not yet passed upon petition of the New York bankers through Senator O'Gorman asking that additional barracks be erected on Governor's Island for the quartering of a full regiment of troops. The bankers claim this proposition is necessary to protect Wall Street from possible mob attack.

Mr. Garrison has received, through O'Gorman, a letter from a New York assembly man, urging the project. He sent an acknowledgment of the letter to the New York senator, but did not commit himself as to the feasibility of the project.

FISHERIES COMMISSIONER RETURNS TO OTTAWA

Was Absent Several Months on Tour of
Inspection in Eastern Canada
and the States.

Ottawa, Sept. 25.—Prof. Prince, Commissioner of Fisheries, has returned to Ottawa after a month's absence of several months chiefly spent in a tour of inspection and deep sea fishing in

investigations in the maritime provinces. Before returning to the capital Prof. Prince called at Washington, D.C., to attend a meeting of the international fisheries commission. President Wilson has recently appointed Dr. Hugh M. Smith, U.S. commissioner of fisheries, in succession to Hon. John Hedges. Dr. Smith's position as international fisheries question and bring into force the provisions of the fishery treaty of 1906 between Great Britain and the United States.

In view of the decision of the Dominion government to relax from the fishery treaty unless the prolonged delay by the United States is terminated at an early date, there is every

probability that an important conference will be held in Ottawa and that Prof. Prince and Dr. Smith will be able to adjust matters.

WHEN NEEDING INSPIRATION
SEND FOR BENNETT.

For the given reason that they are not prepared to go on with the debate upon the Waterways bill, the opposition have asked that the consideration thereof be put over until Monday next.

Considering that they have been talking nothing else for two years and ten months, the admission by the conservatives that they are even yet unready to discuss the matter comes as somewhat of a surprise, to say the least.

Possibly there are reasons not made plain. The memory of Mr. Bennett's eight-hour speech in the house upon this question is one of the cherished traditions of the opposition. They live and dream in that eventful evening when, marshalling all his professional knowledge as a railway solicitor, Richard Bonfire Bennett compared the relative merits of that magnificent transportation system, the Canadian Pacific railway, with the specifications of the Waterways to such evident advantage toward the corporation of his love as must have caused Sir Thomas Shaughnessy to blush with pride.

Since that day the conservatives have been steadily but surely slipping. With their linguistic necromancer no longer in the stage-centre the mesmerism by which they walked on air, somehow, fades. All the pretence efforts of his willing but untrained proteges fail to achieve the mental aerobics of he who wrought that spell. Without the high priest of the world's greatest highway to weave the warp of illusive alliteration through the torrent of resonant syllables the incantation falls flat; the fetish has lost its form; the astral spirit of an impending provincial calamity refuses to be invoked; the charm is dead.

To save the situation, something must be done. Although, with the tide of wheat rolling in and the competition of the farmers' elevators threatening the stronghold of monopoly, the grain business in which he and that other illustrious patriot, Sir Max Aiken, are engaged might be expected to require at this particular juncture the very highest of his illustrious abilities, such things will have to be set aside when duty calls. When the cohorts of conservatism need inspiration there is only one thing to do: Send for Bennett.

LAWYERS INSIDE AND MOUNTED
POLICE AT THE POLLS.

Dr. Stewart, of Lethbridge, is the first member of the opposition who has had the temerity to inform the house that his success in securing election was due to the fact that he had lawyers in every poll and that these were assisted by the mounted police.

The election is still sufficiently recent for liberals in Edmonton to remember what was attempted along the same line in this city, but for evident reasons the effect of the attempt was not by any means the same here as in Lethbridge.

Experienced electioneers, who know the ropes, will understand what there is underlying the boast of the member for Lethbridge that he won his election by having lawyers in the polls and mounted police on the outside. With such a barricade of quibble arrayed against them, the miners, who were against him to a man, coming off shift in a body within an hour or two of the closing of the polls, would find themselves standing on the outside when closing time came, disenfranchised by the delays created within by the quibbling lawyers backed up by mounted policemen on the outside who stood ready to throw into jail any miner who dared to protest at thus being robbed of his vote.

While Dr. Stewart was telling the story he should have told the whole story. He should have told how the miners there were left in the waiting line when the polls closed—men ready to vote for his opponent, J. O. Jones, the labor candidate, and sufficient in numbers to have elected him.

Also, while Dr. Stewart is telling the legislature of the beauties of proportional representation, he should have pointed out that he, himself, slipped in in a three-sided election against a popular majority, the labor man and the socialist combined having more votes than the present representative for Lethbridge city.

WORTHY OF THE COUNCIL'S
MOST CAREFUL CONSIDERATION.

While the city council is deliberating tonight on whether or not they will take the control of the power house out of the hands of a power superintendent who has made good and place it in the hands of the lighting superintendent who does not profess to know anything about power house economy or anatomy, it would be illuminating if the mayor would show the ratepayers some real reason why the present power superintendent should be deposed.

So far as the average citizen is concerned, there is only one test by which he can judge the competency of superintendents; that is, whether patrons get continuous service at the right price. Every one in the city will recollect that there was a time when neither power nor light were continuous, when water was short and muddy and when the cars stalled on the hill. That time was before the present power superintendent came onto the job. An investigation of the affairs of the power house have shown that there was at least half a million dollars' worth of obsolete machinery in the plant, and with this load of idle capital to carry, the present power superintendent has reduced costs, has wiped out one-third of the dead capital, and has kept the water, the power and the light coming along with-

out interruption for months. He now proposes that the cost of electric energy to the users be reduced by a very considerable margin.

This is a record which, it seems, should entitle the man who made it to more scope, instead of less. If it is necessary, or even if it can be shown that it is the practice in any other city of the same size in America, to place the manufacture and the distribution of the light and power under one head, then it seems that the power house superintendent who took a plant loaded with half a million dollars' worth of obsolescence and made it save the public \$150,000 is the man who is entitled to the position of head of the combined department, instead of being reduced to a position very little different from that of a day laborer.

Before the council accepts the mayor's proposal, which practically lets the successful power superintendent out, it should be given very much better reasons than any yet produced for endorsing such a move. The electric utilities of the city of Edmonton are altogether too valuable to be made the medium for the expression of personal pique.

IN THE INTERESTS OF PARTY,
NOT OF THE PROVINCE.

The inconsistency of the conservative allegation that the federal government could not properly turn over the resources for the reason that it has no mandate so to do was never more briefly nor more clearly exposed than by the member for Camrose when he asked in the legislature on Wednesday why, if this was the reason for refusal in the cases of Alberta and Saskatchewan, Mr. Borden did not fulfill his pledge at least as far as Manitoba is concerned.

Each additional declaration by the opposition in the legislature upon this question of the resources is making it more plain from day to day that, as Mr. Smith points out, the interests for which the conservatives are most solicitous are the interests of their party, rather than the interests of the province.

If the interests of the province were paramount to those of their party in their estimation, the opposition would be upholding the government in demanding from the federal premier that the resources be turned over to Alberta.

WHAT WILL THE OPPOSITION DO
WITHOUT THE WATERWAYS?

With the Waterways question settled and out of the way, the wonder now is what subject will occupy the attention of the opposition in the legislature. For three years they have been banging away on the Waterways. On the platform it was their election material. In the house it was the foundation of all their arguments. In all the time that it has occupied their attention the opposition have engaged themselves with this question to the exclusion of everything else. The records of the house fall to show where the opposition have introduced a single measure of a public nature in three years, and in the whole history of the affairs of the province the single exception of their failure to propose legislation is the case of Cornelius Hebert, who introduced the Gothenberg bill as a settlement of the liquor question, a measure upon which even the then party of two in the opposition was divided.

DIRECTOR ON MANY
ROADS.

W. C. Brown, president of the New York Central road, who, according to Dr. Frank Warner, expert statistician for the trainmen and conductors who have attempted to settle their differences with the railroads on the wage question before a board of arbitration, is a director on 13 different railroads. Warner made this assertion in addition to the statement that 16 men control the policies of nine big railroad systems and their subsidiary companies.

SCOTCH CONCERT PROGRAM.

Friday evening is the date set for the Scotch concert in aid of charity, to be held in the separate school hall. This is one of the first of affairs of the season and promises to be a good one, as every number on the program is a good one, and is in the hands of capable managers.

A dance will follow the entertainment and luncheon will be served at intervals.

The Program.

Part I.—Bagpipe selection by Pipe-Major McKim; part song by members of the Choral Union; song, "Good bye," Mrs. Cummings; song by Mr. G. Jones; song, selected by Miss Patterson; song, "The Star of Bethlehem," Mrs. Gage; "The Maple Leaf," by members of the Choral Union.

Part II.—Bagpipe selection by Pipe-Major McKim; part song, "Let the Hills Resound," by Miss Patterson; "Immigrants' Farewell," song, "The Bonnie Banks of Loch Lomond," Mr. Jones; song, Mrs. Cummings; song, "Spring Morning," song, "To Anthea," Mr. Gage; song by Miss Patterson and Mr. Jones, "Let Dream be Over, Farewell," God Save the King.

SUMMER'S GOOD-BYE.

She smiles good-bye in gates of green,
She lifts her hands to eyes to screen
The garish, burning August sun;
Her hold-me fast, her face is a sun.
Good-bye, good-bye, dear lady mine,
With all your golden harvests done
And all your golden harvests done
She stands beside her bin and byre,
Her golden girlhood of desire
Still beating with its dream of moon
Within the rustling robes of corn.
Good-bye, good-bye, how soft and low
The echo of her voice is borne,
How terrible it is to feel

The vales are weary of the light,
The round moon lifts the magic night,
The haunting doves goes by in gray,
The world is very sad to-day.
Good-bye, good-bye, to all thy dreams,
Dear sister of the League of May,
Borne outward by eternal stream!
Her cheeks are brown, her hand is round.

Her bare feet touch like dew the ground,
She shines good-bye through smile and tear
Beside her gates of green, the dear,
Good-bye, good-bye, sweet maiden dear!

In love beyond the reach of fear—
Through gates of green she cries
Good-bye!

—Poster McKinley, in Baltimore Sun.
WHEN OUR GRANDPARENTS WERE IN LOVE.

Things have changed a mighty sight,
Since our grandpas went to spark;
There was no electric light
When they wished to keep it dark;
They'd no chance to ever call
Up a girl by her name;
Had no text-books at all,
Cabaleros were still unknown;

And were plagued by many cares;
How, oh, how did they persuade
Our dear grandpas to be theirs?
When our grandpas were young men
They had little cash to burn;
It was customary then
To save all that one could earn;

They were not inclined to flash
Money where the crowds would see;
They were shy with their cash,
For, in fact, they had to be;
Cocktails gave them no delight,
Life, no doubt, was very tame,
But they seemed to hit it right
With our grandpas, all the same.

When our grandpas loved and sighed
They had little cause for pride,
And their tastes were simple still;
They possessed no purring cars
To appeal to women's hearts;
On their hands they bore the sores
Necessary toll imports;
Oft I wonder how they won
Our dear grandpas, poor old chaps,

They appear, though, to have done
Well despite their handicaps.
—B. E. Egan, in Chicago Record-Herald.

Be very sure that your little girl's head is perfectly clean. It should be washed every two weeks. The best time to do this is at night. Make a soda of white castile soap and rub well into the roots and then rinse in many waters. Vermilion will seldom stay in a perfectly clean head, but if you find that of them rub extract of tarragon all over the head and wash it off in the morning.

To keep sunt to hot weather, put the sunt in a basin and place in the oven till melted. Then pour into jars, and it will keep almost any length of time.

TODAY IN DOMINION HISTORY.

George Washington's appeal to French Canadians to take up arms in the cause of freedom and to give assistance to the revolutionary army then beginning the invasion of Canada was issued on this date in 1775. In his address "the father of his country," used language inspired by expediency and passion, quite unlike the identified democracy that usually characterized his public utterances. He referred to the "poverty of soul and baseness of spirit" of the loyalists, and begged French Canadians to assist "the free-born sons of America" in opposing the "cruel and perfidious schemes which would debase our frontiers with the blood of women and children." He referred to England and the hand of his origin, as the abode of "slavery, corruption, and arbitrary despotism." Washington's appeal had little more effect than that which had been issued by congress. The clergy and seigniors, who were allied with the Quebec law, were disposed to stand by the British government, and their influence prevented any uprising of the population. The Continental congress had previously issued a bitter denunciation of the Catholic church, and this attack on their faith permanently alienated the great majority of French Canadians.

September 25 is the birthday of the Hon. Henry Robert Emerson, statesman and lawyer, of Margerville, Sunbury county, N.B., 1853; and of Paulo Fern (Phillips) Andrew, lecturer, social worker and peace advocate, at Margerville, N.S., 1867. Sir William Johnston Ritchie, chief justice of Canada and acting governor of the Dominion during the absence of Lord Lorne in 1884 and 1885, died on this date in 1892. October 28 next will mark the centenary of his birth at Antigonish, N.S.

TODAY WE CELEBRATE

Oil King Celebrates "Job Day," His Own Holiday

John D. Rockefeller has a private, personal holiday all his own. He calls it "Job Day" and it commemorates his entrance into the business world on September 25, 1855, just 58 years ago today.

The world's richest man did not find it easy to land his first job. The "swamp" and, as a short-cut between the jobless and a job, had not then been invented. The future of oil king tramped the streets of Cleveland for days and weeks, wearing out much better leather. In search of work. He interviewed hundreds of merchants and business men in lines of the city. He announced his willingness to do any sort of work at almost any wage. Boys seemed to be a glut on the market in Cleveland at that time, but patience and persistence finally won out, and little Johnnie "connected" at last with the elusive job he long had sought.

Young Rockefeller was 16, "going on" 17 when he made his premiere in the world of commerce, in the humble capacity of office boy in the commission house of Hewitt and Tuttle. In a little while he became a clerk, then a cashier and bookkeeper. At 19 he entered business for himself as the little partner in the commission house of Clark and Rockefeller. The young merchant saw great possibilities in oil, and in 1862 he and his partner became associated with Samuel Andrews, an expert oil refiner, under the firm name of Andrews, Clark and Company. Although the name of Rockefeller did not appear on the sign, he soon made himself the "boss" of the business. John interested his brother William in the industry and a new company, William Rockefeller and Co., was formed. In 1866 the company built, at Cleveland, a large refinery, which was organized in 1870. In this corporation John D. Rockefeller soon became the controlling power, and by methods which have been explained by his biographer and other investigators, he built up what was practically a monopoly of the American oil business.

"Save the pennies," is the oft-quoted Rockefeller recipe for success. Although he entered the business world at 16, he had made and saved money much earlier than that. When still living on a farm, at the age of ten, he piled a hoe and waded war on the weeds in a neighbor's potato field at a wage of about 40 cents a day. "What he did with his earnings Mr. Rockefeller has himself explained. "When I was 10 years old I had succeeded in earning some money. It was \$50. I loaned it to a neighbor at seven per cent. interest. In a year the money earned me \$3.50. From that time onward I determined to make money for me."

He also made other people's money for him. He was a borrower as well as a lender. He got his start in the petroleum refining business on borrowed money. At 30 he had less than a thousand dollars of his own, but he had several thousands of other people's dollars at his command.

Although he has a special holiday for himself, Mr. Rockefeller doesn't believe in holidays for others. European holidays at his estate were refused a holiday just labor day. "Instead of spending money on worthless amusements, my employees were given an opportunity to add to their savings," explained the world's richest man. "Had they been given a holiday their money would have been spent foolishly. Mr. Rockefeller spent the day mowing about the country and playing golf."

When boiling cabbage use plenty of water and put in a spoonful of salt and boil quickly, and with the lid off the steamer. With cauliflower always turn the head downwards, so that the steam may not settle on the white parts.

GIRL'S NERVES FULLY RESTORED

Was Never Able to Obtain Lasting
Benefit Until Dr. Chase's Nerv
Food Was Used.

Too many girls grow up with weak anaemic bodies and exhausted nervous systems. Indoor life and too much application in school are sometimes the cause.

The blood needs enriching and the nerves need strengthening by such treatment as Dr. Chase's Nerve Food. This food cure is doing wonders for many thousands of girls whose parents had almost despaired of their ever developing into strong, healthy women.

Mrs. J. Bagnall, 395 Woodville avenue, Toronto, writes: "My daughter suffered from nervousness since childhood and any medicines she tried did

not do any lasting good. We read in the papers about Dr. Chase's Nerve Food, and my daughter used it with wonderful results. This treatment has built up her system and so strengthened the nerves that she feels like another girl."

Men May Treat Women Rudely

Does the enfranchisement of women make men rude to them? That charge has been made lately by a woman in California who worked hard for suffrage and is now sorry for it. But is she not mistaking the post hoc for the propter hoc? There has been much complaint lately of the deterioration of manners; the complaints may or may not be well based, but at all events they are not confined to suffrage states. In California the same tendency has been noted by those who believe in equal suffrage. One editor observes that till lately women unaccompanied on the street were safe

Dr. Lillian: Yes, it surely is alarming when you begin to grow too fat to wear your best gown. But here is a way to fail. Get rid of excess fat, and you will be able to wear the dresses of parlor (all flatters her). And dissolve it in 10 pints hot water. Take a tablespoonful before meals. It is the safest way to get rid of that superfluous fat, and it requires no dieting or violent exercises. Always recommend this to my patients. It is as simple as unwrinkled as before the extra flesh was taken on. While taking par-

Mrs. L. L. You are right to want those wrinkles before they grow. The more fat if you let them grow in the face, the more wrinkles. I use this recipe to fail: Get one ounce of lemon from any good druggist. Add a pint cold water and 1 teaspoonful of salt. Shake well. Take 1 or 2 times a day, morning. On beauty cream or make-up. It is as simple, cheap, true, and sure as the sun and moon. It gets rid of the wrinkles and freckles, but first of all, it gets rid of the fat. And you get very quick results.

ADDITIONAL SOCIETY

TAYLOR—CAMPBELL.

The wedding of Mr. James Mitchell Taylor, eldest son of Alexander Taylor, clerk of Supreme Court, and Nora, daughter of Mr. and Mrs. J. W. Campbell, took place last night at the First Presbyterian church, which was magnificently decorated for the occasion. Mr. Vernon Barclay, the officiant; Dr. McQueen officiated. Mrs. Vernon Barclay, at the organ, played dreamy music, winding up with the most beautiful of all compositions, "The Wedding March," when the youthful pair walked down the aisle man and wife. The wedding gown was a marvel of modish simplicity, soft white, brocade satin train, the front looped over a petticoat of Venice lace, embroidered with silver, the same lace forming the bodice. At the circle it was caught in a lacy veil formed a quetzal-like cap, and fell from a tiny wreath of orange blossoms in flamy folds to the edge of the train. Miss Marjorie Beck, maid of honor,

wore a delightful gown of pale mauve beaded crepe, de chene, and a large black hat with upstanding covers, forming a wreath round the crown. She carried a sheaf of mauve flowers. Miss Elmore Taylor's costume was pale green crepe de chene, with shadow lace almost forming the bodice. Her hat was also black, with touches of black tulle, and her flowers were white. Miss Jean Turnbull wore a gish gown of pale pink crepe with shadow lace over the bodice, and forming the sleeves, a black velvet butterfly finishing the girle at the back. Her hat was black with tulle (ouches) and she carried pink roses. The best man was Walker Taylor, the groom's brother. The ushers were Mr. Lawrence Jellie, Mr. Allan Harvey, Mr. Ernest Ferris, Mr. Dyson Phelps.

After the ceremony the guests, numbering about 150, returned to the Campbell residence, where a splendid supper awaited them, with plenty of champagne to toast the happy couple. Mrs. Campbell, mother of the bride, was crowned in a most becoming tulle of king's blue satin with a black lace floating over it; a black hat with black ostrich plumes, and a bouquet of scarlet flowers. The groom's gift was a set of splendid furs, stole and muff. The presents were wonderfully fine. The bride wore a gown of pale pink crepe de chene, in all shapes and forms. The silver-away costume was smartly cut tailor suit of reddish brown cloth, with a dainty hat in the same shade.

The guests were all smartly gowned, some beautiful costumes being worn, and that Edmonton is becoming, or has become, a fashionable city could be realized by the immense number of taxis and motors which bore the guests to and from the wedding.

spoke in "What One Woman Did." The meeting will be to all members and to anyone interested.

A Boston text will be given by the Ladies' Aid of the Second Methodist church on Friday evening, September 26th, at 6 o'clock. A very pleasant evening is promised to all who care to attend.

Rev. Mr. Saunders of Brantford spent a few days in town this week, a guest of Mrs. W. Campbell, of Twenty-sixth street.

Mr. and Mrs. H. M. E. Evans and their guests, Mr. and Mrs. Pansbury, are spending a few days in Saskatoon, Saskatchewan.

Mrs. Malin entertained at a jolly little dance at the Corona on Monday evening. The guests were Mr. and Mrs. Enders, Mr. and Mrs. Hanson, Mr. and Mrs. Laporte, Mr. and Mrs. F. Lewis, Mr. and Mrs. Beck, Mr. and Mrs. Bug, Mr. and Mrs. Lay, Mr. and Mrs. Woodhead, Mr. and Mrs. Payne, Mr. and Mrs. Johnston, Mrs. McMillan, the Misses Casey, the Misses Good, Miss King, Mrs. Querry, Mrs. Wheeler, Messrs. Gilpin, Studelaker, Barney, Moore, Walter, Galtner, Laude, Wyllie, Baldwin, Callaghan, Parker, etc., and others.

Mrs. and Miss B. Saunders returned for the Charity ball this evening, from Banff, where they have spent the summer. Miss Saunders returns later.

Mr. C. E. Whitehouse was the guest of honor at the club on Wednesday evening at the Empire prior to his departure this week for Toronto, where his marriage to Miss Evans, of Birmingham, England, will take place the first week in October.

KATHRYNE KIDDER

HERE NEXT WEEK

Supported by Excellent Company She is Sure to Make a Hit at Empire theatre.

Kathryn Kidder, who needs no introduction to the American public as a result of her numerous starring engagements will headline the Orpheum vaudeville bill at the Empire theatre the first half of next week. Her venue for the first tour of this talented actress in the vaudeville is "The Washerwoman Duet," which is a condensed version of the comedy "Madame Sans Gêne," which Miss Kidder introduced to American theatre-goers. She is supported by an excellent company including John Marchand, who will be seen as Napoleon III.

James J. Morton is a monologist. It was seen here last season with the Orpheum shows, a strain of which will remember him for his inimitable song "To Be Continued in Our Next." Such men as Morton are rare who possess enough personality and humor to make them really big headlines and alone and unaided to interest an audience on a high class vaudeville circuit.

China has done little toward promoting America with good entertainers, but the China Hwa Comedy Four are making up for lost time with a series of clever character sketches interspersed with songs and dances of the best quality. They are exponents of harmony and fun who will give the audience a good entertainment. The three Ellisons have a variety of musical instruments upon which they play skillfully, and Della Rosa and Marcello are a soprano and tenor respectively with reputations as international singers. Thelma and Jan are the form of Lowe and De Marle, tight wire artists and Elsie Sully and Scott who close the bill with diversion on the lamp-lane and elevated bars.

FIRST THINGS.

First American newspaper.

The first American newspaper, "Public Occurrences, Both Foreign and Domestic," was issued in Boston 223 years ago today, September 25, 1690. It was published by Benjamin Harris at the London Coffee-house, in Boston, and was printed for him by Richard Pierce. The first—and only—number consisted of four pages, each about seven by ten inches, but one page was left blank. The pioneer editor's remarks on Political and military matters aroused the ire of the authorities, and the paper was suppressed within 24 hours of its publication. Only a few copies were circulated, and only one copy is now known to be in existence. Harris had proposed to issue the paper monthly, "of any kind of occurrences happen often," and to give "an account of such considerable things as have arrived upon our notice." He promised that "the Publisher will take what pains he can to obtain a faithful relation of all such things; and will particularly make himself beholden to such persons in Boston when he knows to have been for their own use the diligent observers of such matters." He proposed that "Memorable Occurrences of Divine Providence may not be neglected or forgotten," and indulged in a pious hope "that some thing may be done towards the curing of at least the Charming of that Spirit of Lying, which prevails among us, whereas nothing shall be entered, but what we have to believe is true, repaying to the best fountains for our information."

BIG SALE RECORDED ON JASPER AVENUE EAST

Ernest Brown Buys Adjacent 33 Feet for \$50,000—Will Commence Five-Story Building at Once.

That whatever of a stringency may have existed in Edmonton during the summer months has not adversely affected the realty values upon the main thoroughfares of Edmonton was made evident by a deal which was negotiated by H. H. Taylor, president of McGrath and Holgate, Ltd., yesterday, when lot 33, block 4, R.L. 12, chained hands for \$50,000, on a substantial cash payment.

The property in question lies between the Gem theatre and the Ernest Brown building, on Jasper East. The vendor is S. P. Hazeman, of Belleville, Ont., who purchased 32 feet a year ago at \$1,000 a foot, and who now sells for \$50,000.

The purchaser is Ernest Brown, and his intention is to commence construction at once upon a five-story building which will cost \$10,000, and will constitute a unit of the building already erected by him and covering the 66 feet alongside the property just purchased.

REBEL BAND CAPTURES THE POLICE BARRACKS

Were Afterwards Routed and a Number Killed by a Detachment from the Garrison.

Braymott, Ecuador, Sept. 25.—A rebel band, under Colonel Caceres, yesterday morning attacked and captured the police barracks at Ecuador, on the west coast, after a hard fight. A detachment from the garrison, reinforced by the crew of the cruiser Catapuma, then marched against the rebels and another engagement ensued, the rebels being routed and losing a number killed and wounded.

It was learned that the revolutionary movement has been planned in various parts of the republic, but it is believed that the insurgent leaders at Huancabamba Sunday night and at Esmeraldas will probably serve to check further uprisings.

THE JESTER

I play the part of a smirking clown, Day after day, day after day.
 On a stage where Fate with a tinsel crown,
 Plays the part of a King, his lower-
 ing frown
 Is my cue for frolic, and gibes and jests;
 And being a clown, in a clown's own way,
 I honor the king and honor his guests,
 Day after day, day after day.
 Ad the rabble laughs at my foolish pranks,
 Day after day, day after day.
 The crowd, from the king to the serf
 Boars out its applause while I bow my thanks,
 And kissing my hand, retire from the stage.
 Awaiting my turn, I resume the play,
 A buffoon for majesty, price and part.
 Day after day, day after day.
 My hair is as white as the paint that hides,
 Day after day, day after day.
 The furrows of care on my face where
 pride's
 Royal signet is set; in my heart abides
 Shame and grief for my part; for I know—
 As I play the fool in the fools own way
 Those who laugh at my jests are fools also,
 Day after day, day after day.
 "The Jester," Ean Boyd Hickey, in National Magazine.

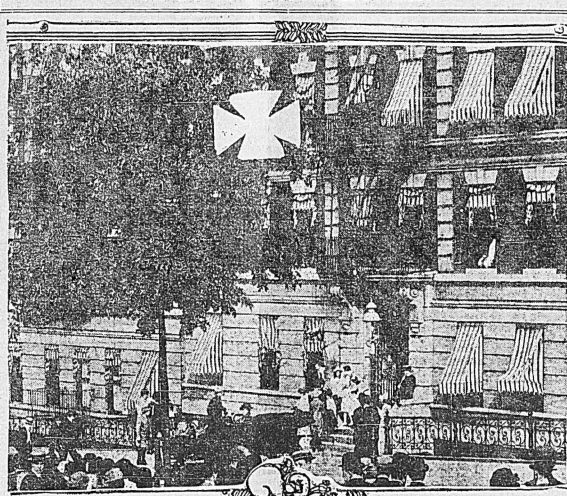

CALM RATHER THAN TEMPEST

"The way to keep a husband," said a Los Angeles woman the other day, "is to fight for him. Diplomacy won't keep a husband out of another woman's clutches so surely as an out-front, then-shoulder fight." Well, let's think about this thing. Isn't it a fact that some women have lost their husbands on a policy of fighting with them? Then it probably is better to fight about rather than fight with them, isn't it? And if a woman really must fight to get it out of her system, so to say. But some women prefer a far different system. They never fight with or about their husbands. They just keep the peace unbroken, just so far as it is humanly possible to do. And there are many men who prefer calmness to tempest—even as spectators, you know.

SCENE OF MURDER COMMITTED BY PRIEST.

Apartment building on Broadhurst avenue, in New York City, with cross, marking room in which Rev. Haas Schmidt has confessed he murdered Anna Ammuller, who was soon to have become the mother of his child. It was in the bathroom of the apartment that Schmidt, after having cut the girl's throat, dismembered the body, wrapped it in small bundles and carried it to the Hudson river by which method he had hoped to hide his terrible crime.

FARMERS HOLD CATTLE FOR BIGGER PRICES

Expect to Ship Them Into United States Free of Duty When New Tariff Bill Becomes Law.

London, Sept. 25.—Advisers from the cattle raising centers in western Ontario show that the farmers who have cattle are holding back their stock in the expectation that the prices will advance when the new U.S. tariff goes into effect, under which Canadian cattle may enter free of duty. This supply, however, is not extensive. Many farmers have gone out of the cattle raising. The dry summer caused many farmers to dispose of the cattle they had, and in several places, more especially in Essex and Kent counties, there is not enough beef for domestic consumption. This is in part due to the fact that the farmers have turned their attention to fruit, tobacco and vegetable.

INSURANCE PREMIUMS EXEMPT FROM INCOME TAX

Washington, Sept. 25.—The premiums returned to policy holders by mutual life and mutual marine insurance companies will be exempt from the income tax under an agreement reached last night by the tariff conference committee. All questions of the income tax and administrative features of the tariff were completed with two exceptions. The amount of exemption allowed under the income tax, fixed at \$3,000 by the senate and \$1,000 by the house, has not yet been settled. A vote will be taken today on the anti-dumping clause of the tariff bill. When the conference adjourned at midnight it was the expectation that the bill would be completed today and the conference report made to the house Friday.

LATEST BOXING NEWS

New York, Sept. 25.—Charley Miller, San Francisco, heavyweight, fought Al Palmer, in a 10-round bout here last night. Both men weighed 219 pounds and appeared in good condition. Miller had the better of four rounds, Palmer three, and three were even.

 New Orleans, Sept. 25.—Frankie Russell, of New Orleans, and "Knock-out" Brown, of New York, have been matched for a 10-round bout here on October 14th. It was announced the winner of this bout will meet Joe Rivers here two weeks later.

Dundee to Meet Acevedo.
 Los Angeles, Sept. 25.—Johnny Dundee and Jose Acevedo were matched last night to box 10 rounds on October 10th at the Vernon arena here. They will meet as lightweights.

FROM OMAR KHAYYAM.

I sometimes think that never blossoms the best
 The Rose as where some buried Caesar bled;
 That every Hyacinth the garden wears
 Dropt in her Lap from some once lovely head.
 And this reviving Herb whose tender Green
 Pledges the River Lip on which we lean—
 Ah! leave upon it lightly; for who knows
 From what once lovely Lip it springs unseen!
 Tomorrow!—why, Tomorrow I may be
 Myself with Yesterday Sev'n Thousand Years.
 For some we loved, the loveliest and the best
 That from the Vintage rolling Time hath prest,
 Have drunk their Cup a Round or two before,
 And one by one crept silently to rest.
 And we, that now make merry in the Room
 They left, and Summer dresses in new bloom,
 Ourselves must be beneath the Couch of Earth,
 Descend—ourselves to make a Couch—for whom?
 Ah, make the most of what we yet may spend,
 Before we too into the Dust descend;
 Dust unto Dust, and under Dust to lie,
 Sans Wine, sans Song, sans Singer, and sans End!
 HOW DOES THE SOUL GROW?
 How does the soul grow? Not all in a minute;
 Now it may lose ground, and now it may win it;
 Now it resolute, and again the will
 Now it recoileth, and now it beavails;
 Now it rejoiceth, and now it beavails;
 Now its hopes fruitfully, then they are blighted;
 Now it walks sunnily, now gropes in whole;
 Fed by discouragements, taught by disaster,
 Now it goes forward, now slower, now faster,
 Till all the pain past, and failure made whole.
 It is full grown, and the Lord rules their soul.
 —Susan Coolidge.

PRES. CHAMBERLIN DENIES ALLEGED STATEMENT

Says the Financial Condition of the New England Railway Will Not Permit Resumption of Construction.

Providence, Sept. 25.—Hope that work on the Southern New England railway, the line that was planned to connect the Grand Trunk with the sea by way of Providence, would be resumed speedily, was dispelled yesterday by a telegram from President Chamberlin, of the Grand Trunk. The message read:
 "Regret to say that the Southern New England has not yet made financial arrangements which would warrant its resuming work in Rhode Island."
 This message was in answer to a request for a confirmation of the announcement made at Montreal yesterday that the contractors had been ordered to proceed with construction operations.
 Confirms Denial.
 Montreal, Sept. 25.—E. J. Chamberlin, president of the Grand Trunk railway, who was in this city last night, confirmed his despatch sent to Providence, R.I., contradicting the report that work was to be at once started on the Rhode Island section of the Southern New England.
 "There is nothing more to the story," said Mr. Chamberlin. "Financial arrangements were made for the grading of the road through Massachusetts and I can make no further announcement as to the resumption of operations on this line."
 Mr. Chamberlin was present here for a few days and will then start on a tour west.

SECOND READING ON WATERWAYS BILL MONDAY

(Continued from Page One.)

from killing a duck or a chicken at any time on his own land and for his own consumption. It is not the farmer who slaughtered game. The law should be applied to game hogs. The member for Camrose, who declared that hunters in pursuit of ducks could not resist the temptation to kill chickens and this temptation should be removed by opening the season for both ducks and chickens on the same day. He stated that the law should be more rigidly enforced and more license money should be collected.

Governing the remarks of Mr. Ewing with reference to the introduction of race prejudice in election campaigns, Mr. Smith read extracts from campaign literature circulated by Mr. Ewing's committee appealing to the French Canadians of Edmonton, as French Canadians, on behalf of their candidate on racial grounds.

Borden's Brief Plea
The question of natural resources was liberally treated by Mr. Smith, who reviewed the problem from his inspection. The attempt of the Liberal party in Alberta on this subject was consistent and logical throughout. There was a vast difference between the control of the public lands and control of natural resources. The cold fact was that Mr. Borden had failed to keep his pledge—a pledge voluntarily made and pressed as a campaign issue. Mr. Smith censured the Liberal government for race and discrimination against the west in the matter of representation in parliament. To use such a grave question as this as a political football was not in the public interest, he declared. Upon reciprocity, Mr. Smith contrasted the attitude of Mr. Borden and his followers with that of Lord Charnwood, an Italian who left the great seal of Britain to come to Montreal and meet the American bar association to promote good will between Great Britain and the United States.

Agriculture—Credit
Dealing with the question of cheap money for farmers, Mr. Smith declared that the farmers were only asking for their rights. All they wanted was a market for their products, which the conservatives denied them. Upon their prosperity depended the welfare of the country.

YOUNG ATHLETES ARE TRAINING

Public School and High School Boys Preparing for Sports Day.

The young athletes of the public schools are all down to training in earnest for the public school sports which will be held early next month. The runners and jumpers are out every evening now, in fact, there seems to be much greater interest in the coming meet than at any time since the annual sports day was established six years ago.

If reports be true there are some very good athletes in the schools this year and many of the old records will doubtless be broken.

The committee which has charge of Sports Day has made a few changes in the usual program of things. The course for the cross country run has been changed. Instead of starting at the Alex Taylor school as in previous years, the start will be made at the junction of St. Albert and Twenty-seventh street and the finish will be at the high school. An interesting feature of this year is that the course across the Hudson's Bay reserve is left optional to the runner, he being at liberty to go any route he may choose.

The committee has also decided to give medals to all winners of events except the junior public school winners who will receive material prizes as in former years.

SMITH-LANGFORD BOUT IS OFF.

New York, Sept. 25.—The club announced last night that the bout arranged to take place in Madison Square Garden Friday night between Dundee Smith of California, the leading white heavyweight, and Sam Langford, the Nova Scotia negro pugilist, is off.

This announcement was made shortly after the New York state athletic commission had decided unanimously to ban the rule prohibiting bouts between negro and white pugilists in the state.

Missors declare they are not discriminating against race or color. They have power under the boxing law to make any rules they consider necessary to protect public safety of the sport.

Dr. Fowler's EXTRACT OF Wild Strawberry Soon Relieved Their Sufferings. THEIR TROUBLE WAS DIARRHOEA.

Mrs. Edward Kingston, Mirror Alta., writes: "Coming to the North West from B.C. in the summer of 1910 we were face to face with the serious problem of being able to secure good drinking water. This we could not get, so were obliged to drink water containing a great deal of alkali, with the result that all of us were troubled with diarrhoea. Fortunately we had a bottle of Dr. Fowler's Extract of Wild Strawberry in the house, which soon relieved our sufferings. I have always kept a bottle in the house since obtaining such beneficial results from its use when my boy, as a baby, was similarly troubled."

"It has always proved a friend in need."

"Make up your mind to insist on getting 'Dr. Fowler's' when you go to your local dealer. Don't accept a case of the 'phony' preparations that some of the unscrupulous dealers try to pass off as 'Dr. Fowler's.'"

Four Regular Players Quit Eskimo Rugby Football Team

Coach White Having Troubles of His Own—Does Not Know If Men Will Come Back or Not—Deacon Must Only Be Good Coach But Must Be Good Diplomat to Keep Team Going.

Four of the regular team who the rugby squad failed to turn up at practice last night and Coach Deacon White fears that he will be compelled to find new men. It is quite probable that none of the four will return to the team this season. Just who these four men are Coach White refused to say until he was certain that they intended remaining out of the game.

Nobody knows except the man who has been there what Deacon White is up against in his endeavor to give Edmonton a winning amateur rugby team. Coaching football for a college is a soft job compared with this. In a college the coach has more or less control over his men. The amateur has not his regular team the subs do not all become proved and quit him and if a scolding happens that any of the players quit the team could purely for personal reasons. There is a college spirit that holds the team together.

MOOSE AW WILL BE NEXT COURSE

Though Poor Picking, Hamilton Tigers Will Chew Bone for Practice.

MOOSE JAW, Sept. 25.—Hamilton's crack rugby team—the Tigers—arrived in the city at noon yesterday. Their big game with Murray Thompson's Moose Jaw aggregation today. Upon the arrival of the C.P.R. depot the visitors were met by a big delegation of Hamilton Old Boys residents here and proceeded immediately to the Y.M.C.A., where they were publicly received by Mayor Pascoe, who tendered them the freedom of the city. In response to Mayor Pascoe's address, Coach Walter Marriott stood on behalf of his team, laying stress upon the fact that despite Hamilton's poor record, they were the greatest leader the Hamilton team ever had. The amount of money for the forthcoming games of the big gathering present.

After a tour around the city in automobiles, in the evening, a light supper was served at the hotel. The work was greatly assisted by a large crowd which gathered on the sidewalks.

MOOSE JAW'S team will have two or three changes from that which met the Hamilton team last night. Flying was the place holder on the half-back line, while Williams is suffering from rheumatism and his place will be held down by Jimmy McPherson. The latter will play in spite of his badly strained ankle. The latter's presence is expected to be a banquet at the Empress hotel last night, being the guests of the Hamilton Old Boys.

WINE DIVING CONTEST

Chicago, Sept. 25.—W. G. Galditz, of Chicago, won the English diving championship at the Royal Bathing house. The judges decided the contest on three dives from a low board, five feet, four inches and a high board, ten feet. The general form displayed by the competitors was very close. H. C. Johnson, of Sweden, took second place, with H. B. Pitt, of London, who has held the championship for the last four years, third.

Marquard and Devore Joined Giants Four Years Ago Today

Rube Marquard, the well known pitcher, who first joined the Giants just four years ago today, September 25, 1909. To secure the services of the divinely tall and most diverting baseball player, the New York Giants had paid Indianapolis the stupendous sum of \$11,000, the highest price paid for a player in the history of the game. When the Rube occupied the rubber for his big show debut, he was, as the poem says, the cynosure for all eyes. Cincinnati was the opposing team, and what then horrified Rube did to Rube was a sin and a shame. The "11,000 beauty" lasted about as long as an loyle in Panama.

During the remainder of the 1909 season, Marquard pitched 17 games, winning only three. He was as wild as a London street urchin. Speed he had in sufficiency, and a stock of puzzling batters, but he couldn't get over a manufactured little better control in the early part of 1910, and his popular title of "the \$11,000 demon" was well earned. Since then the Rube has come to the front as one of the greatest twirlers in baseball, and has proved that he is worth all the money paid for him.

Richard de Marquis is the real master of the great club artist. He began playing ball with up to 18 years in the Central League, in 1907, when 18 years old. The following year he went to the Indianapolis team, and with a record-breaking year for him. The first year. He is a native of Cleveland, O., and is of French descent.

Joshua Devore, the modest outfielder also made his debut with the Giants four years ago today. Josh, also a native of Ohio, began playing ball with Meridian, in the Ohio State League, and was with Newark, in the Eastern League, in 1909. During the fall and end of 1909 season he appeared in 19 games, and was little successful than Marquard. In 1910 he hit his stride, and swatted the ball for an average of .304. Josh was sold to the Reds this year, and Cincinnati disposed of him to the Phillies.

PUBLIC SCHOOL GIRLS PLAY BASKETBALL GAMES

Leagues Opened Yesterday When Four Games Were Played—Results of Boys' Soccer Football Games

The girls' basketball leagues in the public school played their first games yesterday afternoon. Some of the schools came out with very good teams and some are not so good but it is expected that, before the season has advanced far, the teams will be more evenly matched. Some of the games played yesterday were very close.

Following are the results:
Alex Taylor beat Queens, 7 to 6.
Norwood beat McCauley by a large score.

BOYS' SOCCER GAMES

In the boys' soccer games played yesterday, Queen Alexandra beat Edward 2 to 1, and Norwood and McCauley schools played a tie game.

SOCCER CHAMPIONS GAVE CUP.

Sept. 25.—A step toward making soccer football the national pastime of Canada, was taken last night when the C.P.R. football team decided to give the McNaughton cup to be competed for by teams from the public schools of the city in the series of games to be played next spring.

The McNaughton cup was won by the C.P.R. from Winnipeg in 1911 and was supposed to be emblematized of the football championship of Western Canada.

It was expected that the C.P.R. would have to defend it against the Norwood Wanderers during tomorrow. Queen Alexandra returned to the public school content with the Compuer. Since then the C.P.R. has been notified that the cup has been turned over to them tonight.

TO THE PUBLIC

Our Already Satisfied Clients

We now consider the time is ripe to begin investing some money in real estate, for the reason that the money stringency which has been prevalent will soon be a thing of the past; Western Canada has this year reaped the best crop in her history, which will mean a larger circulation of money than ever before; building permits are again increasing very largely, and the prospects are that next year will show enormous increases.

We have always aimed to give our clients properties which we would purchase ourselves, and have been very successful in making money for them. To begin with we do not want a lot of money to invest, as we are carefully picking out small investments which will mean a profit of 100 per cent. to the investor, and we feel very sure about these investments before placing them on the market. Now, for the next ten days we would like to take the matter up with you, and if, after considering our proposition, you do not see it in the same light as we do, we will be perfectly satisfied to drop any such business for the present.

NO MORE WRITING FOR BALL PLAYERS

World's Series Players Must Content Themselves With Meagre Earnings.

Cincinnati, Sept. 25.—Owing to frequent complaints received by the National Baseball commission and the Baseball writers' association concerning articles alleged to have been written by ball players, the National Commission yesterday handed down a ruling in which it orders that no players be permitted to compete in the world's series or any city series, shall write or pretend to write an account of such series for any newspaper, nor shall any player allow the use of his name on an article purporting to be written by him.

Violation of this order will result in the infliction of such penalty as the commission may determine.

The Baseball Writers' association of America has recently received the co-operation of the commission in preventing ball players from invading their field.

V.A.C. EASILY DEFEATS VICTORIA LACROSSE TEAM

Amateur Champions Score 13 Points and Hold Their Opponents Score- less in Last Game

Vancouver, Sept. 25.—Having demonstrated their ability to defend the Mann cup against allcomers, the V.A.C. amateur champions may now go home and admire the silverware as far as challenges from British Columbia are concerned. Yesterday the winged V. gave the recognized "Indian" sign when they shut out the Oak Bay team by a 13 to 0 score. The score just about indicated the difference between the calibre of the two teams. The Victoria contingent put up a fairly effective defence, but their home work was about as much like lacrosse as marble is the baseball. They rarely got within decent shooting distance of Jack Davis at all, and on the one or two occasions the V.A.C. goal tender was tested having an easy time of it. Anything like boring in tactics (by which alone lacrosse games can be won) was conspicuous by its absence. The passing of the home team was slow and the combination play of poor quality.

In marked contrast to their opponents, the V.A.C. home division played a whirlwind game, although even their lacrosse was by no means faultless. Slack passes on several occasions resulting in the ball going to the enemy.

English Billiard Champion Gives Excellent Exhibition

In Game at Edmonton Club Sports Heywood 450 and Defeats Him by 200 Points in 1000 Game—High Run 203—Plays at Olympic Tonight.

McBourne Inman, world's champion English billiard player, who appears in public tonight at the Olympic billiard parlor, played a match last night at the Edmonton club against W. D. Heywood, marker for the club, who is the best English billiard player in the city.

The exhibition given by Mr. Inman was nothing short of wonderful, and those who witnessed the game were delighted. He gave Mr. Heywood 450 points in a 1,000 point game, and defeated him by over 200 points in less than two hours.

Mr. Inman played in excellent form, making a run of 203, and another of 185. His average was around 50 points. Heywood made a very credit-

TODAY IN PUGILISTIC ANNALS.

1855—Tom Sayers knocked out "Bloody" Rhodes in three rounds, beginning his remarkable ring career which soon led to the championship. Sayers, who was very small for a heavyweight, won the title in 1857 by defeating Bill Perry, the Tippler. Sayers, a huge, uncouth giant. The Perry-Sayers battle was a memorable exhibition of skill and science pitted against brute strength. One round lasted 30 minutes, while the referee, giant, charged the minute Sayers left the ring. Three years after winning the title Sayers fought another remarkable battle with John Hecox, a gigantic Irish-American, which was ended by official interference. Sayers retired the undefeated champion.

1912—Billy Papke defeated Jack Denning in 10 rounds at New York.

1912—Johnny Dundee defeated George Kirkwood in 10 rounds at New York.

G.T.P. HAS RECEIVED NEW SLEEPING CARS

This Company Was the First to Establish Electrically Lighted Cars for Comfort of Passengers.

The Grand Trunk Pacific has received the first five of their new sleeping cars on this year's order and are justly proud of them.

Two years ago that company introduced electric lighted steel underframe sleepers, the first of the kind used in Canada, and later introduced the first electric lighted train in western Canada. It was felt at that time that those sleepers were the most comfortable and roomiest ever produced, besides containing many features possessed by no other sleeping cars, and in the intervening two years it is certain that no line has produced cars to surpass or even equal them in appointments or strength.

The cars just to hand are even an improvement, as they embody many additional features of beauty and comfort which place them in a class by themselves. The finish is exquisite; the latest electric fans and ventilating appliances including vacuum cleaning machines, are part of the equipment; drawing rooms and compartments (en suite or single) are provided, and all berths are electric lighted with effective reading lamps. The upper berths are arranged to take away the last objection, as they afford higher space and roomier than the lower and are not at all difficult to enter or leave. The Grand Trunk Pacific are assuredly living up to the standard set for "charcoal" service and are affording the people of western Canada better facilities than are employed on any other American railway.

The first car of the new series, "Canoe," left on No. 4 for Port William on Saturday night, on which train not less than three electric sleepers are operated regularly. Even then it has been almost a nightly occurrence to turn over business owing to lack of accommodation available, for which due apology is made and the assurance is now given that ample equipment will be available hereafter to afford accommodation to all seeking the popular route.

LORD METHUEN OFFERED POST OF GOV.-GENERAL

New York, Sept. 25.—A London cable to the American press.

"The post of governor-general of Canada on the retirement of the Duke of Connaught has been offered to Field-Marshal Lord Methuen, according to the London Standard. He is likely to accept."

APPEAL CASES ALLOWED.

Judge Taylor, in Criminal Court yesterday, allowed the appeals, without costs, of Pauline Benson, convicted and fined \$25 and costs in police court for being an inmate of a common bawdy house at 687 Kinsington avenue, and Maudie Howard, convicted and fined \$50 and costs, for being the alleged keeper of the same house.

If a pane of glass has to be removed from the putty which holds it in place with a soft soap, leaving it on for some hours. The putty will then become soft and can be scraped away, and the glass taken out easily.

Permits Taken Out For \$65,000 Worth of Houses

Inspector's Office Had Busy Day Monday—1913 Building Record Promises to Keep up With Pace Set During Past Years—\$13,100 for South Side

On Monday exactly \$65,000 worth of building permits were taken out. In Greater Edmonton. That means that on both sides of the river considerable building is anticipated this year, therefore the construction program of 1913 will finish up as bright and rosy as any previous year.

All the permits issued by Building Inspector Melvor at the erection of dwellings. Not one permit call for the construction of a business block. This is accounted for by the fact that in the early part of the year

Come any day at two o'clock and have a free auto ride to see this new town. Any time of day by appointment.

nearly all the permits were for blocks and stores, thus the construction during the spring and summer months have been of the heavy order. Of this total sum, \$12,100 represents the building activity on the south side of the river, while the remaining \$52,900 is for construction work on the north side. The largest permit issued for the old portion of the city, otherwise of dwellings, was given to S. F. Munson, which calls for the erection of a number of dwellings in Summerland, amounting to \$23,000.

Fire in Ferry Building—The fire broke out in the ferry truck company's stables at the foot of McDougall avenue last night, and only for the prompt response probably resulted in a serious conflagration. The blaze did little damage, the only loss being a small amount of property, two or three blankets, and a few miscellaneous articles, placed in a stable of the horse part of the building. No blame is attached to anyone.

Appeal Case Heard—In the supreme court this morning the appeal from the decision of the supreme court in the case of the Yukon and Yukon Railway Co. vs. the Yukon and Yukon Railway Co. was heard. The facts established at the trial were that the Yukon and Yukon Railway Co. had mortgaged a tract of land from defendant to secure the payment of the price of the horse part of the building. No blame is attached to anyone.
